

MORSETTO RAPIDO IN ALLUMINIO | ALUMINIUM FAST CLAMP Art. 156A

Art. 156A
Morsetto di tiro in alluminio per lamierini a saldare, completo di n. 3 lamierini in ferro. Pratico, leggero, offre una elevata sicurezza e forza di tiro. Utilizzabile per riparazioni di lamierati in acciaio e/o alluminio, grazie ai lamierini specifici.

Pull clamp made of aluminium, complete with 3 weld on steel plates. Very light and handy, yet strong and performing.
It can be used for larger dent repair on steel as well aluminium panels, thanks to the dedicated weld on plates.

Caratteristiche tecniche Technical specifications		156A
Materiale Material		Alluminio Aluminium
Larghezza presa di tiro Pulling width	mm	45
Forza di tiro Pulling strenght	ton	3*
Peso Weight	kg	0,3

*N.B: i piastrini si rompono a 1,2 ton / weld on plates come off at 1,2 ton pull
